## 4. GRUPO AGUAS DONATIONS AND SPONSORSHIPS POLICY

**First.** The Grupo Aguas Code of Ethics recognizes the ethical and corporate-responsibility values that govern its actions, and within these guidelines is implicitly included the Company's commitment to contribute to society as a whole—through various means—its dedication to social, environmental and cultural interests, as well as to the sustainable and innovative development of the environment and local communities.

**Second.** This Donations and Sponsorships Policy is intended to establish general guidelines for defining the scope and achieving the objectives related to the provision of donations, sponsorships and memberships

<b>Version Number:</b>	09		<b>Code:</b>	GA010017
<b>Effective Date:</b>	18/06/2025		<b>Page:</b>	4 of 6

**Third.** The main axes of this Donations Policy are water and environmental care, charitable purposes, commitment to social, environmental and cultural interests, and the sustainable and innovative development of the environment and local communities, in line with the values recognized in the Company's Code of Ethics and the guidelines of the Criminal Offense Prevention Model.

**Fourth.** Grupo Aguas has a Donations and Sponsorships Committee responsible for evaluating and approving the initiatives and projects it reviews; when applicable, authorization shall also be granted by the respective Board of Directors of the Grupo Aguas company providing the contribution, pursuant to the provisions of the Grupo Aguas Donations and Sponsorships Procedure.

**Fifth.** Projects reviewed by the Committee shall demonstrate, as a priority, respect for the guiding principles of this Policy, always and at all times complying with internal regulations and applicable legislation. In particular, it is required that they be carried out within an adequate control environment, respecting the controls established in the corresponding procedure and maintaining proper documentation of the various actions performed.

The beneficiaries of donations, sponsorships and memberships approved and granted by Grupo Aguas companies must be legal entities whose purpose and reputation do not pose risks to the Company in financial, ethical or criminal terms. Any type of contribution in favor of a person, entity or organization that performs or promotes activities contrary to the law, fundamental rights or constitutional norms, and, in any case, to the ethical values and principles of Grupo Aguas, is strictly prohibited.

Special care shall be taken to ensure that the use of the contributions complies with the objectives declared by each project, preventing their use from being or appearing to be an attempt to influence the actions or decisions of authorities or third parties. To this end, as a priority, due-diligence processes shall be carried out for potential beneficiaries, and evidence of the execution of donations, sponsorships and memberships shall be required.

**Sexto.** Cash contributions are strictly prohibited, as well as any donation or collaboration intended to finance political campaigns or support political activities of any kind, directly or indirectly, through any mechanism.

Agreements may be entered into with social or political think tanks only when they constitute a genuine contribution to public policies related to the corporate purpose and social, cultural, scientific or educational objectives of Grupo Aguas, and when they rely on methodologies and qualified personnel committed to those principles, ensuring tangible results and consistent alignment and coherence with the activities of Grupo Aguas companies and their ethical and corporate-responsibility principles. These contributions shall be reported to the Board of Directors of the corresponding company of the Group. The foregoing regarding think-tank contributions does not prevent the execution of agreements or partnerships with research centers whose purpose is to conduct research and development on matters of interest related to the Group, provided they meet suitability and technical-experience requirements and deliver concrete results from their analyses.

**Seventh.** Through this Policy, Grupo Aguas seeks to strengthen its corporate ethical structure while pursuing its strategic objectives, identifying and protecting activity risks, supporting value-generation activities, protecting the corporate image, ensuring the availability of granted benefits, and complying with legal and regulatory requirements.

It also establishes a commitment to development and continuous improvement, conducting reviews by the Board of Directors, which shall be informed semi-annually of all actions approved by the Donations and Sponsorships Committee and must approve all contributions exceeding 1,000 inflation-indexed units (Unidades de Fomento) in accordance with the Grupo Aguas Donations and Sponsorships Procedure.
